*For All the World to See: Visual Culture and the Struggle for Civil Rights*, a nationally touring exhibition from NEH on the Road, is now available for viewing at main library.

Through a compelling assortment of photographs, television, art posters, and historic artifacts, the exhibition traces how images and media disseminated to the American public transformed the modern civil rights movement and jolted Americans, both black and white, out of a state of denial or complacency.

Exhibit is open to the public during regular library hours.
