5 THINGS TO FIND @ YOUR LIBRARY IN 2015

1. THE FUTURE

We're hosting more technology classes than ever. From desktop computers, to tablets and notebooks, to e-readers and phones, we've got you covered with classes, workshops, and programs to help you use and understand your technology. Teens are creating their own movies, and children are developing robots with our Lego Robotics program. We also are excited to announce our new 3-D printer that will be unveiled this year!

2. THE PAST

We're now offering Thursday night genealogical mentoring with help from the Terrebonne Parish Genealogical Society and the Bayou History Center. With the largest genealogy department in the region, the Main Library's resources and librarians are available to help you dig up your family's past and maybe discover something new about yourself.

3. LITERACY INITIATIVES

We have story times at every branch for all age levels from birth to teen, including various book clubs for teens and adults. Miss Lillie can be seen all over Terrebonne Parish in her Reading Well Van, reading to children in preschool and daycare.

4. PARTNERSHIPS & COMMUNITY BUILDING

We partner with loads of community agencies throughout the year to help provide services and learning opportunities for businesses, organizations, and individuals. The library is the community and the community is the library.

5. YOU!

YOU make up Terrebonne Parish Library and without you we couldn't do all the good work we do. We look forward to what 2015 has in store for us.

Turning The Tide

Main Library | WED, 1/21 @ 6-7pm

TURNING THE TIDE is a workshop for middle and high school English & Art teachers provided in partnership with BTNEP. Participants will receive training & materials for a special series of cross-curricular lesson plans that combine science, language arts, & visual art. Teachers will earn one CLU hour free, while learning how to facilitate lesson plans that give students an opportunity to explore our Louisiana land loss issues by writing & drawing responses to a gripping PBS video of a couple who share how our coastal land loss has dramatically impacted their lives.
